B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. It also requires estimates in the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

C. Accounting Policy

Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

6. Mortgage backed/asset backed securities are carried at amortized cost or fair value based on guidance in the SVO Manual. Prepayment assumptions for mortgage backed/asset backed securities are based on market expectations. The retrospective adjustment method and prospective interest method are used to value all mortgage backed/asset backed securities
7. Investments in SCA companies are carried in accordance with SSAP No. 97, Investments in Subsidiary, Controlled, and Affiliated Entities, A Replacement of SSAP No. 88, and the SVO Manual.

Such liabilities are necessarily based on assumptions and estimates, and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods, for making such estimates and for establishing the resulting liability, are continually reviewed and follow current standards of practice. NOTES TO FINANCIAL STATEMENTS

- (5) The Company reviews fixed income securities for impairment on a quarterly basis. Securities are reviewed for both quantitative and qualitative considerations including, but not limited to: (a) the extent of the decline in fair value below book value, (b) the duration of the decline, (c) significant adverse changes in the financial condition or near term prospects of the investment or issuer, (d) significant change in the business climate or credit ratings of the issuer, (e) general market conditions and volatility, (f) industry factors, and (g) the past impairment of the security holding or the issuer. If the Company believes a decline in the value of a particular investment is temporary, the decline is recorded as an unrealized loss in policyholders' equity. If the decline is believed to be "other-than-temporary," and the Company believes it will not be able to collect all cash flows due on its fixed income securities, then the carrying value of the investment is written down to the expected cash flow amount and a realized loss is recorded as a credit impairment.

On August 16, 2022, the U.S. enacted the Inflation Reduction Act (the "IRA"). For tax years beginning after December 31, 2022, the IRA imposes a new corporate alternative minimum tax (the "CAMT") on applicable corporations with average adjusted financial statement income in excess of \$1 billion for the three prior tax years. Based on the guidance currently available, Liberty Mutual Holding Company Inc. and subsidiaries, the controlled group of corporations which the Company is a member of, expects to be an applicable corporation subject to the CAMT in 2023. Therefore, the controlled group will perform the necessary CAMT calculations in order to determine whether or not it will have a CAMT liability for the tax year 2023. The 2022 financial statements do not include an estimated impact of the CAMT, because a reasonable estimate cannot be made.

B. Transfers and Servicing of Financial Assets

The Company participates in a Securities Lending Program to generate additional income, whereby certain fixed income and mortgage backed securities are loaned for a period of time from the Company's portfolio to qualifying third parties, via a lending agent. The company does not participate in term loans; therefore, the company does not have contractual collateral transactions that extend beyond one year from the reporting date. Borrowers of these securities provide collateral equal to or in excess of 102% of the market value of the loaned securities. Acceptable collateral may be in the form of cash or U.S. Government securities, such as Treasuries and Agency Bonds. The market value of the loaned securities is monitored and additional collateral is obtained if the market value of the collateral falls below 102% of the market value of the loaned securities. Additionally, the lending agent indemnifies the Company against borrower defaults. Cash collateral is carried as an asset with an offsetting liability on the balance sheet, as the collateral is unrestricted and the Company can exercise discretion as to how the collateral is invested. The loaned securities remain a recorded asset of the Company.

- (1) At December 31, 2022 the total fair value of securities on loan was \$ 3,094,318 with corresponding collateral value of \$ 3,260,907 of which \$ 3,039,401 represents cash collateral that was reinvested.

The Company participates in a Securities Lending Program to generate additional income, whereby certain fixed income and mortgage backed securities are loaned for a period of time from the Company's portfolio to qualifying third parties, via a lending agent. The company does not participate in term loans; therefore, the company does not have contractual collateral transactions that extend beyond one year from the reporting date. Borrowers of these securities provide collateral equal to or in excess of 102% of the market value of the loaned securities. Acceptable collateral may be in the form of cash or U.S. Government securities, such as Treasuries and Agency Bonds. The market value of the loaned securities is monitored and additional collateral is obtained if the market value of the collateral falls below 102% of the market value of the loaned securities. Additionally, the lending agent indemnifies the Company against borrower defaults. Cash collateral is carried as an asset with an offsetting liability on the balance sheet, as the collateral is unrestricted and the Company can exercise discretion as to how the collateral is invested. The loaned securities remain a recorded asset of the Company.
