B. Use of Estimates in the Preparation of the Financial Statements:

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the financial statements and of revenue and expense for the period then ended. It also requires estimates in the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from these estimates.

C. Accounting Policy:

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of written premiums. On August 16, 2022, the U.S. enacted the Inflation Reduction Act (the "IRA"). For tax years beginning after December 31, 2022, the IRA imposes a new corporate alternative minimum tax (the "CAMT") on applicable corporations with average adjusted financial statement income in excess of \$1 billion for the three prior tax years. Based on the guidance currently available, Liberty Mutual Holding Company Inc. and subsidiaries, the controlled group of corporations which the Company is a member of, expects to be an applicable corporation subject to the CAMT in 2023. Therefore, the controlled group will perform the necessary CAMT calculations in order to determine whether or not it will have a CAMT liability for the tax year 2023. The 2022 financial statements do not include an estimated impact of the CAMT, because a reasonable estimate cannot be made.
